Session #8
[Wed 27 May 2020; 1 PM NYC time]
Remember -- rotating days from week to week!

Asmeret Asefaw Berhe (UC-Merced) Digging deeper: persistence and climate sensitivity of deep soil organic matter

Sasha Reed (USGS) Hurricanes and heat: Results from a Puerto Rico tropical forest warming experiment

A weekly series of one hour Symposia on Zoom for ≈ 8 to 12 weeks (April to June or July). The idea is to hear about great science; network across labs, institutions, states and countries; focus with our community on something other than COVID-19; and share some music, poetry, cooking, and other arts.

Upcoming Sessions:
June 4, Alastair Potts (Nelson Mandela Uni), Peter Wragg, Personal Resilience Workshop
June 10, ?????
